

Owner: Sustainable Comfort, Inc. | Location: Worcester, MA | Completion Date: 2018

A Colonial Revival style building on the national historic register, historically known as the William Inman House. A conversion from a group residence to a lodging house involved safety upgrades including a full sprinkler system and fire alarm system. Special attention was paid to preserving and not interfering with the historic charm of the ornate details, Ionic porch and columns, and stained glass.

Property Management

At SCI we don't just help construct greener buildings, we also want to understand and assist in what it's like to live in them. To that end, each building SCI renovates also gets managed by us. Our property management team works to ensure a healthy and comfortable living situation for each tenant, while linking them to community resources around Worcester.
